Rocky Flats Area Office

SOIL REMOVAL PROJECT

Attached is a letter from Dr. Liverman to Governor Lamm which confirms their agreement to defer cleanup of the contaminated soil southeast of the asphalt pad. Accordingly, please terminate your plans to commence the soil removal operations in May; however, you may proceed with the "dry run" portion of the project in order to evaluate removal techniques and procedures. You may wish to invite State Health Department personnel to participate in the evaluation.

*Handwritten signature/initials*

I understand we will be receiving comments from Headquarters soon in connection with the environmental assessment you prepared. I share Dr. Liverman's hope that an assessment can be developed to the satisfaction of all parties which would preclude the need for an environmental impact statement.
